

Find the number of a digits in a string Program

```
package test;
public class count {
    public static void main(String[] args) {
        String str = "void345gjid";
        int digits = 0;
        for (int i = 0; i < str.length(); i++) {
            if (str.charAt(i) >= '0' && str.charAt(i) <= '9')
                digits++;
        }
        System.out.println("Total number of Digits = "
                           + digits);
        // TODO Auto-generated method stub
    }
}
```

o/p:

Total number of Digits = 3
