

JDBC Example 1

```
package teat.com;
import java.io.*;
public class ReadData {

    public static void main(String[] args)throws IOException {
        DataInputStream dis = new DataInputStream(System.in);
        FileWriter fw = new FileWriter("C:\\aasrita\\testfile.txt",true);
        BufferedWriter br=new BufferedWriter(fw);
        String str=null;
        int size;
        while( true )
        {
            System.out.println("Enter file input");
            str=dis.readLine();
            if(str.equals("null"))
                break;
            size=str.length();
            br.write(str,0,size); //write to file
            br.write("\n");
        }

        br.close();
        fw.close();

        // TODO Auto-generated method stub

    }
}
```
