

## Find the factorial of a number

```
package test;
```

```
public class factsum {  
    static int findFactSum(int n) {  
        int sum =0;  
        int fact = 1;  
        for(int i =1;i<=n;i++) {  
            fact = fact*(i);  
  
            sum = (sum+fact);  
  
        }  
        return sum;  
    }  
  
    public static void main(String[] args) {  
  
        int n = 3;  
        System.out.print(findFactSum(n));  
    }  
}
```
